

FineArt Baryta Satin

Glossy FineArt

300 gsm, 100% α -Cellulose, white, satin-finish

Product Description

FineArt Baryta Satin is a baryta paper with a white, satin-gloss surface. The amount of barium sulphate in the coating in conjunction with a microporous ink-receiving layer provides exceptional image results with large colour space and intensive colouring. FineArt Baryta Satin enables extremely deep blacks (Dmax), excellent image sharpness and is perfect for black-and-white photography. Compatible with pigmented and dye inkjet systems.

Applications

Photographic and fine art reproduction complying with highest archival standards, digital art, black & white and colour photography, limited edition prints, presentation prints for display purposes and exhibitions, albums, greeting cards etc.
